Resources*

**temporary
Employment**

**with
North Carolina
State Government**

What is *temporary solutions*?

temporary solutions is a division of the Office of State Human Resources which provides temporary staffing to North Carolina State Government agencies -- exclusively.

We offer temporary employment opportunities to qualified candidates as well as:

- ~ *competitive wages*
- ~ *short/long term assignments*
- ~ *flexible work schedules*
- ~ *semi-monthly paychecks*
- ~ *Raleigh area assignments*

Since our establishment in 1986, *temporary solutions* has employed thousands of candidates with state government, many of which have secured permanent employment with various state agencies.

We can connect you with a state government agency that needs your skills and experience.

~ An in-depth personal interview with a placement counselor gives you the opportunity to present your work experience, qualifications, and specific employment interests.

~ We offer skills evaluation testing in the computer programs most frequently used by state agencies. This enables our counselors to better determine which positions match your skills.

~ Whether you are interested in temporary work while between careers or just want the flexibility of short-term assignments, *temporary solutions* has opportunities for you.

Comments

~ I worked with *temporary solutions* for a few months and then I was hired in a permanent position.

~ *temporary solutions* gave me an opportunity to gain more work experience that has enhanced my marketability.

~ Working through *temporary solutions* gave me an opportunity to look around and see what state government has to offer.

~ I really appreciate *temporary solutions* finding me a job.

The best
way to get
your foot
inside
state
government.
